About Us

Established as a Proprietor firm in the year 2022, we “H.D. Infrastructure” are a leading Manufacturer and Service Provider of a wide range of Fabrication Work , Air Louver, etc.H.D Infrastructure is specialized in Design, Engineering, Fabrication and Erection of Pre-Engineered Metal Building Systems. H.D Infrastructure started its journey in India by setting up State of Art having manufacturing facility at Delhi, India on 2017.

There are many other reasons why we're the smart choice for your building needs. After all, our products are thoughtfully engineered to support equipment of all types and environments of any kind, striking a delicate balance between lightweight construction and heavy-duty performance. And because they are easy to ship, assemble, modify, and relocate, you don't have to worry about cutting corners to cut costs.

H.D Infrastructure's products are pre-engineered to BIS and AISC structural standards. They're also pre-fabricated, which means our buildings are almost completely done before they leave our factory. With simple foundation requirements and a wide variety of pre-framed panels to choose from H.D Infrastructure's products minimize the work necessary in the field and expedite the entire construction process.

In fact, our products can be constructed four times faster than conventional rigid frame metal buildings. And if you're in need of a quick quote, our pricing turnaround on...
